

Project Contribution

Based on all four Gantt charts (YXH, CFB, HJX, and LT), here's the comprehensive task allocation summary table:

Team Member	Finished Tasks	Allocation %
Yang Xuanhe (YXH)	• Team Management Leader • Requirements analysis and confirmation (4 days) • Project Scope Definition (3 days) • Stakeholder Identification (1 day) • Model Selection (3 days) • Data Requirements Analysis (2 days) • AI Model Design • Core Function Design (UI+backend) • Non-Core Function Design (UI+backend) (6 days) • AI Model Training (7 days) • AI Model Validation (6 days) • System Debugging (2 days) • Official Launch (2 days) • System Documentation Finalization (7 days)	25%
Chen Fubin (CFB)	• Project Charter Development (5 days) • Risk Management Plan (7 days) • System Architecture Design (2 days) • Core Interface Development (11 days) • Core System Integration (4 days) • User Acceptance Testing (6 days) • Project Documentation Archiving (2 days)	25%
Han Jingxiao (HJX)	• Test Plan Development (7 days) • Interface Design • Development Environment Setup (4 days) • Non-Core Function Development with Unit Test (13 days) • Non-Core System Integration (4 days) • Core System Integration Testing (7 days) • Deployment Environment (2 days) • System Deploy (2 days) • Project Closure Report (2 days)	25%
Li Tong (LT)	• Resource Allocation (2 days) • Detailed Requirements Specification (5 days) • Database Design (6 days) • Database Implementation	25%

Team Member	Finished Tasks	Allocation %
	• Core Function Development with Unit System (12 days) • System Testing (5 days) • Lessons Learned Documentation (7 days)
